

Admissions Counselor Hour-by-Hour System Runbook

Purpose

This runbook describes a normal admissions counselor day in `crtfy student` with exact system actions. It assumes the counselor is responsible for moving students through:

Inquiry -> Prospect -> Applicant -> Incomplete -> Complete -> Admitted -> Deposited/Committed -> Registered

Use this as a training checklist for what to click, what to review, and what to enter throughout the day.

8:00 AM - Sign In And Open Today's Work

1. Navigate to the `crtfy student` app.
2. Sign in with your assigned username and password.
3. Confirm the left navigation is visible.
4. Click `Today's Work` in the left navigation.
5. Review the top summary cards:
 - Needs attention
 - Close to completion
 - Ready for decision
 - Exceptions
6. Review the `Counselor workbench` section.
7. Click the `Due follow-up` bucket.
8. Scan each student row for:
 - student name
 - program
 - reason to act
 - next follow-up
 - last contact
9. Start with students that have overdue follow-up or urgent priority.

Expected result: the counselor knows the first set of students who need action today.

8:15 AM - Work Overdue Follow-Ups

1. Stay on Today's Work .
2. In Counselor workbench , keep Due follow-up selected.
3. For the first student, click Log contact .
4. In the counselor action modal:
 - Set Action to Log contact .
 - In Next action , enter the next concrete step, for example:
 - Send missing transcript reminder
 - Confirm application fee payment
 - Schedule advising handoff
 - In Next follow-up , choose the next date and time.
 - In Note , enter a short activity summary, for example:
 - Called student. Left voicemail about missing official transcript.
5. Click Save action .
6. Repeat for each overdue student that can be handled quickly.
7. If a student needs deeper review, click the student name or open student from the work item to open Student 360 .

Expected result: overdue follow-ups are logged, next actions are set, and future follow-up dates are recorded.

8:45 AM - New Inquiry First Touch

1. Navigate to Today's Work .
2. In Counselor workbench , click the Inquiry bucket.
3. Open the first inquiry by clicking open student .
4. On Student 360 , confirm the Overview tab is selected.
5. Review:
 - email
 - phone
 - city
 - source
 - population
 - program
6. If the program is wrong or still generic:
 - Find the Program dropdown in the overview details.
 - Select the correct degree or program.
 - Wait for the Program updated. confirmation.
7. Click the Outreach tab.
8. In the outreach form:
 - Set Template to New inquiry .

- Set Channel to Email , Text , Call , or Other .
- Review the generated Subject .
- Edit the Draft so it sounds personal.
- Set Next follow-up to the next reasonable follow-up date.

9. Click Log outreach .

10. Click the Timeline tab and confirm the communication appears.

Expected result: the inquiry receives first-touch outreach, the selected program is accurate, and the next follow-up is scheduled.

9:30 AM - Work Incomplete Applications

1. Click Incomplete Applications in the left navigation.
2. Use the page filters or search box to focus on the highest-priority students.
3. Look for students who are:
 - one item away from completion
 - stalled
 - missing transcript
 - missing essay, fee, recommendation, or other requirement

4. Click open student for the first student.

5. On Student 360 , click the Checklist tab.

6. Review Next best actions .

7. If an item has been received and should be accepted:

- Click the item action button, such as Mark reviewed OR Mark complete .
- Confirm the checklist updates.

8. If the student still needs outreach:

- Click the outreach tab.
- Choose the right template:
 - Missing transcript
 - Missing requirement
 - Application help
- Edit the Draft .
- Set Next follow-up .
- Click Log outreach .

9. If another office owns the blocker, click the Handoff tab.

10. In Create handoff :

- Set Target to the receiving team, for example Admissions Operations , Financial Aid , or Registrar / Transfer Specialist .
- Set Priority .
- Set Status to Open .
- Enter Owner if known, or leave it as the target team.

- Set Due .
- In Blocker / request , enter the exact request, for example:
 - Please verify whether official transcript was received from North Valley CC.

11. Click Create handoff .

Expected result: incomplete students either move closer to complete status, receive outreach, or are routed to the right owner.

10:30 AM - Review Documents And Transcript Evidence

1. Click Documents Queue in the left navigation.
2. Review document rows for:
 - unmatched student
 - low confidence
 - failed or pending processing
 - trust-sensitive issue
3. Open the document or related student when needed.
4. If working from Student 360 , click the Documents tab.
5. In Transcript lineage , click the transcript row you need to inspect.
6. In the transcript modal:
 - Review extracted courses.
 - Review credits, grades, term, year, rigor, and confidence.
 - Review the transcript document preview when available.
7. If the issue is a checklist blocker:
 - Return to the Checklist tab.
 - Mark the item reviewed or complete when appropriate.
8. If the issue needs processing or trust review:
 - Click the Handoff tab.
 - Create a handoff to Admissions Operations or the appropriate review team.

Expected result: document blockers are resolved, escalated, or clearly assigned.

11:15 AM - Review Transfer Credit And Program Fit

1. Open a transfer or college transcript student in Student 360 .
2. On Overview , confirm the selected Program .
3. Find the Course equivalency card.
4. Click Refresh catalog map if the mapping needs to be updated.
5. Review the table columns:
 - Transcript course

- Credits
- Catalog course
- Degree requirement
- Match

6. Look at the header totals:

- Might transfer
- Likely won't

7. If the map supports a stronger program conversation:

- Click Outreach .
- Choose a relevant template, usually Application help OR New inquiry .
- Add transfer credit context to the Draft , for example:
 - Your transcript shows several courses that may apply toward the selected program.
- Click Log outreach .

8. If the mapping needs academic review:

- Click Handoff .
- Set Target to Academic Department OR Registrar / Transfer Specialist .
- In Blocker / request , enter the course mapping question.
- Click Create handoff .

Expected result: transfer students get a clearer path to degree fit, and unresolved equivalency questions are assigned.

12:00 PM - Midday Queue Check

1. Return to Today's Work .

2. Review:

- Handoff queue
- Post-admit blockers
- Recruitment follow-up

3. In Counselor workbench , click each relevant pipeline bucket:

- Applicant
- Incomplete
- Complete
- Admitted
- Deposited/Committed

4. For each bucket, confirm whether the top students have:

- current next action
- owner
- due date or next follow-up
- recent activity

5. For any student with missing ownership:

- Open the student.
- Add a timeline note or create a handoff.

Expected result: the counselor catches stale work before the afternoon.

1:00 PM - Move Complete Files Toward Review

1. Click `Ready for Review` in the left navigation.
2. Review students whose files are complete.
3. Open a student that appears ready.
4. In `Student 360`, click `Decisions`.
5. Review:
 - recommendation summary
 - fit narrative
 - release posture
6. If the student should move to a reviewer or decision team:
 - Click `Handoff`.
 - Set `Target` to `Application Reviewer`.
 - Set `Priority` based on urgency.
 - Set a due date.
 - In `Blocker / request`, enter:
 - Application complete and ready for review. Please review decision packet.
 - Click `Create handoff`.
7. Return to `Today's Work` and continue with the `Complete` bucket.

Expected result: complete files are not stuck with the counselor. They are routed to review ownership.

2:00 PM - Work Admitted Students

1. Click `Admitted / Yield` in the left navigation.
2. Choose a view such as:
 - Newly admitted
 - High likelihood
 - No recent activity
 - Missing next step
3. Open a student.
4. In `Student 360`, click `Yield / Deposit`.
5. Review:
 - deposit likelihood
 - fit score

- owner
- post-admit readiness percentage

6. If the student needs a deposit reminder:

- Click Outreach .
- Set Template to Deposit reminder .
- Choose Channel .
- Edit the Draft .
- Set Next follow-up .
- Click Log outreach .

7. If affordability or aid is the blocker:

- Click Handoff .
- Set Target to Financial Aid .
- In Blocker / request , enter the aid question or package concern.
- Click Create handoff .

Expected result: admitted students have next-step outreach or a clear downstream owner.

3:00 PM - Work Deposited / Committed Students

1. Click Deposit / Melt in the left navigation.

2. Choose a view such as:

- At risk
- Missing FAFSA
- Missing orientation
- Registration incomplete

3. Open a student.

4. In Student 360 , click Yield / Deposit .

5. In Post-admit readiness , update each relevant milestone:

- Set Status .
- Confirm or edit Owner .
- Set Due .
- Enter Blocker if there is one.
- Click Save for that milestone.

6. Common milestone updates:

- Financial aid package : set to Blocked if package is missing.
- Orientation : set to In progress OR Complete .
- Advising appointment : enter owner and due date.
- Registration status : set to Blocked if registration is incomplete.
- Bursar / student account : set to Blocked if there is an account hold.

7. If another office must act:

- Click Handoff .

- Choose the correct Target .
- Enter blocker details.
- Click Create handoff .

Expected result: deposited students have visible registration and enrollment blockers with owners and due dates.

4:00 PM - Log Recruitment And Source Activity

1. Open the relevant student in Student 360 .
2. Click the Recruitment tab.
3. In Recruitment source :
 - Select Territory .
 - Select Event type , for example:
 - College fair
 - High school visit
 - Transfer partner visit
 - Open house
 - Webinar
 - Campus visit
 - Set Date .
 - Enter School / partner .
 - Enter Event name .
 - Enter Notes , for example:
 - Met student at transfer fair. Interested in BS Computer Science and asked about transfer credits.
4. Click Log recruitment activity .
5. Click Timeline .
6. Filter or scan for recruitment_event and confirm the event appears.

Expected result: inquiries and applicants are tied to territories, schools, partners, and events for follow-up and reporting.

4:30 PM - Check Reporting And Accountability

1. Click Reporting in the left navigation.
2. Review the overview cards:
 - incomplete to complete conversion
 - average days to complete
 - average days complete to decision
 - admit to deposit conversion
 - melt rate

3. Review Inquiry to registered funnel .
4. Review Handoff SLA :
 - open handoffs
 - overdue handoffs
 - completed percentage
5. Review Counselor workload .
6. Review Source performance .
7. If a metric looks off:
 - Return to Today's Work .
 - Open the relevant bucket.
 - Create or update student actions, handoffs, or milestones.

Expected result: the counselor sees whether the day is improving movement through the funnel and whether ownership gaps remain.

4:45 PM - End-Of-Day Cleanup

1. Return to Today's Work .
2. Click Due follow-up .
3. Confirm every student touched today has:
 - next action
 - next follow-up date
 - last contact or activity note
4. Review Handoff queue .
5. For any handoff created today, confirm it has:
 - target team
 - owner or queue
 - due date
 - priority
 - blocker/request
6. Review Post-admit blockers .
7. Confirm blocked milestones have owners and due dates.
8. Open any student with missing context and add a Timeline note:
 - Click Timeline .
 - Set Activity to Note .
 - Set Outcome to the closest available value.
 - Enter the note.
 - Click Add activity .

Expected result: no touched student is left without the next clear step.

5:00 PM - Sign Out

1. Click the user menu in the top-right corner.
2. Click `Sign out` .
3. Confirm the login screen appears.

Expected result: the counselor ends the day with follow-ups, handoffs, outreach, milestones, and activity history recorded in the system.

Daily Quality Checklist

Before leaving, confirm:

- ☐ Every contacted student has a timeline entry.
- ☐ Every student needing future action has `Next follow-up` set.
- ☐ Every blocked student has either outreach or a handoff.
- ☐ Every handoff has target team, owner, due date, priority, and blocker/request.
- ☐ Every admitted or deposited student has post-admit milestones updated.
- ☐ Every recruitment conversation has source, territory, school or partner, and event context logged.
- ☐ Today's Work no longer has avoidable stale items in `Due follow-up` .
